

Frameoffset in textbackground ConTeXt 2021.06.01 17:04

Thus, I came to the conclusion that the designer of a new system must not only be the implementer and first large-scale user; the designer should also write the first user manual.

The separation of any of these four components would have hurt T_EX significantly. If I had not participated fully in all these activities, literally hundreds of improvements would never have been made, because I would never have thought of them or perceived why they were important.

But a system cannot be successful if it is too strongly influenced by a single person. Once the initial design is complete and fairly robust, the real test begins as people with many different viewpoints undertake their own experiments.

```
\starttext
Frameoffset in textbackground \ConTeXt\ \contextversion\blank
\definestartstop[offtest]%
    [before={\starttestbkg},after={\stoptestbkg\par}]
    \definetextbackground[testbkg] [frame=on,%
        frameoffset=20pt,backgroundoffset=5pt,%
        location=paragraph,background=color,backgroundcolor=cyan
\startofftest
    \input knuth
\stopofftest
\stoptext
```
